We encourage our residents to engage, enjoy, express, and live as full, independent and active a life as possible with us. Our dedicated activities team develop an extensive weekly calendar of group and one-to-one activities, tailored to the unique needs, and expressed interests, of our residents. Residents' freedom of choice guides everything we do.

On a typical week residents enjoy music, singing, dancing, light exercise, reminiscence therapy, art therapy, pet therapy, gardening, and excursions when weather allows. Our activities programming is designed to turn each day into an opportunity for our residents to **live with purpose**.

Memory Care Centre of Excellence

Inspired Care for people living with dementia

Our inspired Memory Care programme has been designed to help residents with dementia build and maintain cognitive ability, and experience happiness, dignity and contentment in their lives.

Promoting an optimal quality of life

The Mowlam Memory Care Model is built around providing highly specialised, exceptional care for our residents with Alzheimer's, dementia and other cognitive impairments – going further than a general nursing home care model.

We do this through highly personalised tools like our Life Story Book, reminiscence therapy and the integration of medical, behavioural and social support – emphasising the care of the whole person, not just their dementia.

Caring In Partnership

Our staff understand the importance of honouring our residents and the challenges that they and their family members face on this journey, by keeping the residents and their families' at the heart of the care planning and decision-making process.

The hallmark of care we provide is that we view our care as a partnership between us, our residents and their families.

We are very proud of our homely and welcoming atmosphere at Archersrath Nursing Home & Memory Care Centre and would be delighted to show you around so that you can experience it for yourself.
